

# Innovations in Preformed Road Markings

## Preformed Road Marking Paint

# What is Preformed Road Marking Paint?

- A unique, durable, permanent road marking that can be removed when required leaving no residue
- Available in any colour, length, shape, size and design

# What is Preformed Road Marking Paint?

Sofia, Bulgaria

ERF Seminar  
22 February 2012

# Benefits

- Speed
  - No preparing materials
    - Heating, mixing, etc
  - No drying time
  - Open to traffic immediately
- Reduced Environmental Impact
  - No heavy machinery
  - Recycled glass beads and material layer
  - Waterborne, eco friendly traffic paint

# Benefits

- Safety

- No large installation machinery
- No naked flames
- No complicated setting up

- Simple Removal

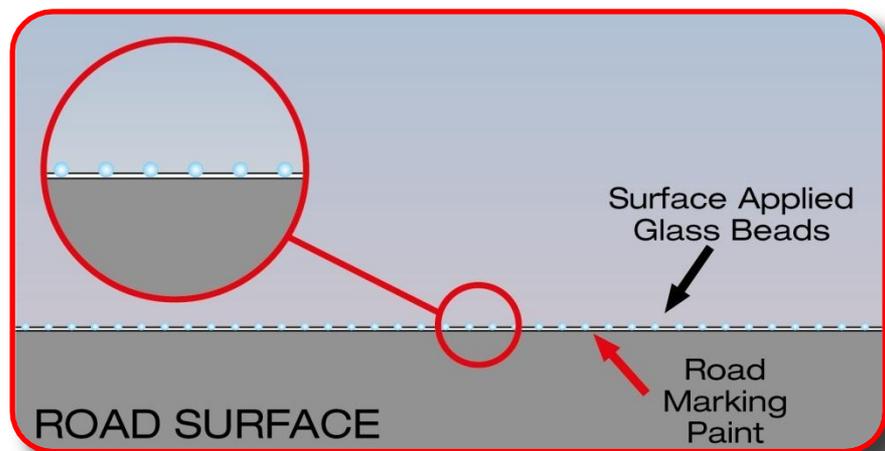

- Non-invasive procedure so no damage to road surface or visual scarring

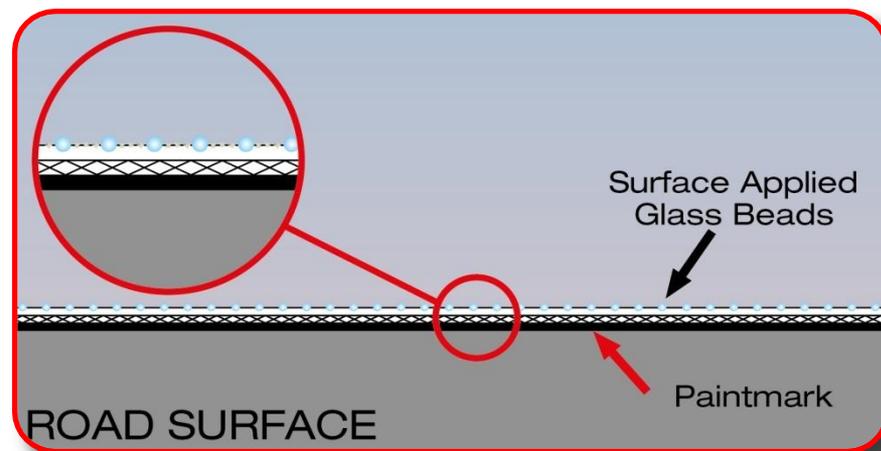

# Benefits

- Improved retro-reflectivity vs. standard paint installations
  - Thicker paint gives greater bead retention

Standard Paint Application

Preformed Traffic Paint

# Uses: Temporary Delineation

# Uses: Permanent Markings

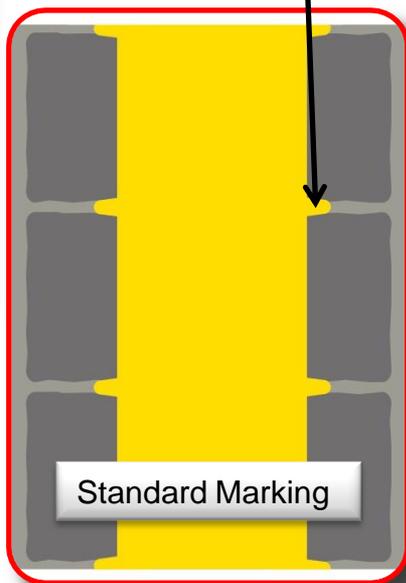

Sofia, Bulgaria

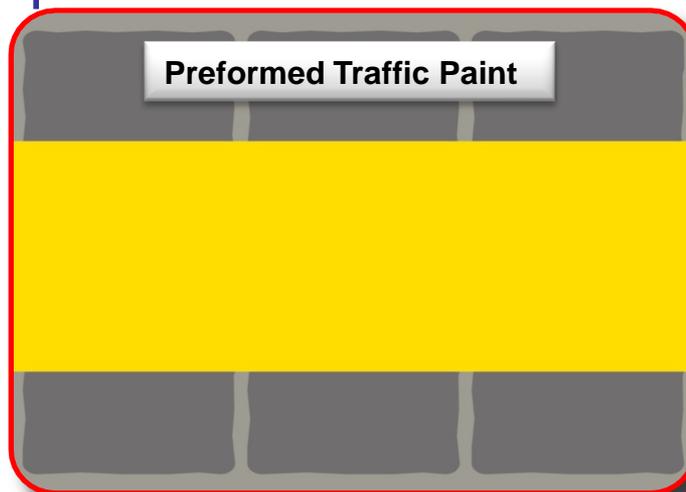

ERF Seminar  
22 February 2012

# Uses: Cobbled Streets

- Standard markings can 'flow'

- Preformed road marking paint will not

## Uses: Letters/Numbers

- Speed
  - Markings produced off site and quickly applied
  - Road can be re-opened immediately
- Accuracy
  - Controlled production process
  - Specific fonts, sizes and colours
  - No mistakes
  - No wasted material

# Uses: Letters/Numbers

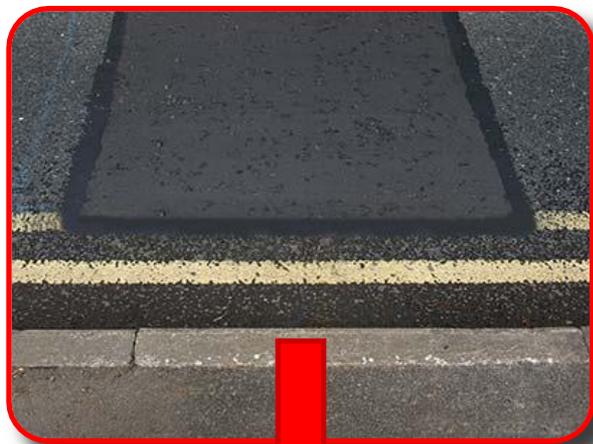

Sofia, Bulgaria

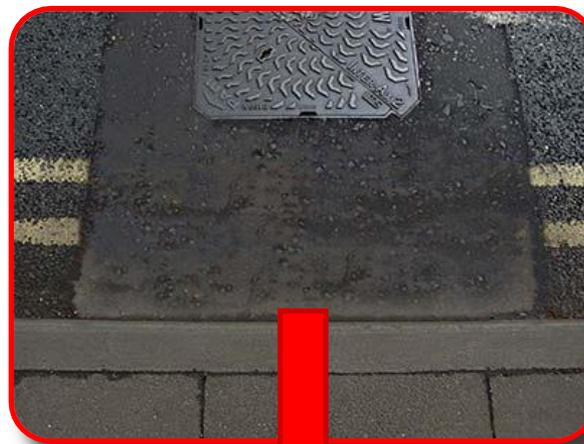

# Uses: Images & Symbols

# Uses: Reinstatement

Sofia, Bulgaria

# Uses: Temporary Signage

# Uses: Temporary Signage
